

**ANNUAL REPORT ON THE STATE OF THE OCEAN AND THE
OCEAN OBSERVING SYSTEM FOR CLIMATE**

TABLE OF CONTENTS

FOREWORD	<i>ix</i>
PROGRAM PLAN FOR BUILDING A SUSTAINED OCEAN OBSERVING SYSTEM FOR CLIMATE.....	1
CHAPTER 1: THE ROLE OF THE OCEANS IN CLIMATE.....	27
CHAPTER 2: THE STATE OF THE OCEAN.....	35
Introduction.....	38
Sea Level.....	39
Sea Surface Temperatures.....	45
Ocean Heat Fluxes.....	51
Global Oceanic Precipitation Variations.....	55
Atlantic Monthly Air-Sea Fluxes and the 2005 Hurricane Season.....	59
Surface Currents.....	61
The Meridional Overturning Circulation and Oceanic Heat Transport.....	68
Ocean Heat Content Variability.....	74
Equatorial Pacific Ocean Variability (El Niño).....	85
Arctic Ocean and Sea Ice.....	88
The Global Ocean Carbon Cycle: Inventories, Sources and Sinks.....	97
CHAPTER 3: THE STATE OF THE OBSERVING SYSTEM.....	105
Program Overview FY 2005: The Sustained Ocean Observing System for Climate System Management.....	106
FY 2005 Projects, Authors, and Websites.....	111
<i>FY 2005 Progress Reports</i>	
Tide Gauge Stations	
1. Global Sea Level Observations.....	115
2. Operation of the National Water Level Observation Network.....	119
Drifting Buoys	
1. The Global Drifter Program - Drifter Measurements of Surface Velocity, SST, SSS, Winds and Atmospheric Pressure.....	121
2. Surface Drifter Program.....	124
3. Global Drifter Program - Fabrication of 22 Hurricane Thermistor Chain Drifters.....	128
Tropical Moored Buoys	
1. An Indian Ocean Moored Buoy Array for Climate.....	130
2. Pilot Research Moored Array in the Topical Atlantic (PIRATA).....	133
3. NOAA's PIRATA Northeast Extension.....	136
4. Tropical Atmosphere Ocean (TAO) Array.....	137
Ocean Reference Stations	
1. Ocean Reference Stations.....	142
2. Western Boundary Time Series in the Atlantic Ocean.....	150

3. Flux Mooring for the North Pacific's Western Boundary Current: Kuroshio Extension Observatory.....	159
4. Weddell Sea Moorings.....	163
5. High Resolution Climate Data from Research and Volunteer Observing Ships.....	164
6. U.S. Research Vessel Surface Meteorology Data Assembly Center.....	166
7. Assimilation, Analysis and Dissemination of Pacific Rain Gauge Data: PACRAIN.....	170
Ships of Opportunity	
1. High Resolution XBT/XCTD Transects.....	177
2. NOAA's XBT Network.....	179
3. Atlantic High Density XBT Lines.....	181
4. Observations of Air-Sea Fluxes and the Surface of the Ocean - Atlantic and Pacific VOS.....	183
5. Developing an Underway CTD.....	186
ARGO Profiling Floats	
1. The ARGO Project - Global Ocean Observations for Understanding and Prediction of Climate Variability.....	187
2. Gliders for Climate Observations.....	192
3. Improved Salinity Measurements.....	193
Ocean Carbon Networks	
1. Global Repeat Hydrographic/CO ₂ /Tracer Surveys in Support of CLIVAR and Global Carbon Cycle Objectives: Carbon Inventories and Fluxes.....	196
2. Document Ocean Carbon Sources and Sinks - Surface Water pCO ₂ Measurements from Ships.....	207
Appendix: Underway CO ₂ Measurements Aboard the RVIB Palmer and Data Management of the Global VOS Program.....	216
3. High Resolution Ocean and Atmosphere pCO ₂ Time-Series Measurements.....	222
4. Optimal Network Design to Detect Spatial Patterns and Variability of Ocean Carbon Sources and Sinks from Underway Surface pCO ₂ Measurements.....	229
Arctic Ocean Observing System	
1. United States Interagency Arctic Buoy Program.....	232
Analysis	
1. A Web Site for the Global Ocean Data Assimilation System: A Linkage Between Model and Observations.....	236
2. Enhanced Ocean Climate Products from NCEP.....	238
3. National Water Level Program National Water Level Observation Network Annual Report on Sea Level.....	238
4. In Situ and Satellite Sea Surface Temperature (SST) Analyses.....	241
5. Investigating Some Practical Implications of Uncertainty in Observed SSTs.....	245
6. A Fifty-Year Analysis of Global Ocean Surface Heat Flux.....	247
7. Climate Variability in Ocean Surface Turbulent Fluxes.....	249
8. Surface Flux Fields from Surface Observations.....	254
9. Air-Sea Exchanges of Fresh Water: Global Oceanic Precipitation Analyses.....	254
10. Preparation of Ocean Heat and Freshwater Content Variability Estimates.....	257
11. Development of Global Heat and Freshwater Anomaly Analyses.....	258
12. Evaluating the Ocean Observing System: Performance Measurement for Heat Storage.....	261
13. Evaluating the Ocean Observing System: Surface Currents.....	263
14. Quarterly Reports on the State of the Ocean: Meridional Heat Transport Variability in the Atlantic Ocean.....	265
15. Management of NOAA's Carbon Monitoring Network.....	268
16. Arctic Ice Thickness: State of the Arctic Report.....	280

17. Observing System Research Studies.....	281
18. Simulation of the ARGO Observing System.....	283
Data and Assimilation	
1. Observing System Monitoring Center (OSMC).....	285
2. Data-Assimilating Model Development.....	287
Education	
1. Education Initiatives Sponsored by the NOAA Office of Climate Observation...	289

**CHAPTER 4: SATELLITE CONTRIBUTIONS TO THE OCEAN
OBSERVING SYSTEM FOR CLIMATE.....291**

APPENDICES

Appendix A: Recent Publications.....	301
Appendix B: Professional Development And Community Service By Scientists.....	317
Appendix C: The Ten Climate Monitoring Principles.....	329
Appendix D: Acronyms	331
